

MANAGED SERVICES

PRODUCT INFORMATION

Did you know that on average a quarter of IT budgets are spent on procurement and software maintenance? Statistically almost every second software installation is not properly licensed - or in the worst case it is no longer used at all. This not only results in high costs, but in the event of sub-licensing or mislicensing, management may even be liable under private law. With the license management solution "KPC SAM" we bring transparency into your license inventory, optimize it and conduct legally compliant manufacturer audits. The offer includes different service packages depending on your needs.

KPC SAM BASIC

Do not wait until you are prompted for the audit! Proactively deal with the issue of license management and legally secure yourself before the audit with the "KPC SAM Basic" package. We prepare you with our license precaution check optimally for possible audits, level over- or sub-licensing, so that you benefit from cost savings in the long term. The basic package gives you a unique overview of the current license situation in your company and includes the following services:

- » KPC SAM Licence Workshop
- » License and Installation Analysis

- » Preparation of a license balance sheet
- » Optimization of the license portfolio
- » Project completion with reporting

KPC SAM PRO

Your worry-free package. With our comprehensive license management package "KPC SAM Pro", we guarantee you the complete takeover of your license management in addition to the one-time optimization of your license inventory with our basic package.

- » KPC SAM Basic
- » Take-over of the licence management
- » Permanent monitoring of the license portfolio
- » Quarterly reporting

KPC SAM NOW - IN THE EVENT OF AN AUDIT

Thanks to our many years of experience, we are very familiar with the process flows of audits. We know the requirements of the software manufacturers and ensure that the audit is carried out successfully, so that you can continue to take care of your day-to-day business with complete peace of mind.

We take over these services for you:

- » Advance Risk Analysis
- » License and Installation Analysis
- » Clean-up of the license balance sheet
- » Accompaniment of the audit & support until completion

OUR SERVICES

- » Implementation of license workshops
- » License and installation analysis on site
- » Risk preview / compliance check
- » Individual determination of requirements incl. reporting
- » Procurement of licenses on schedule
- » Ongoing monitoring
- » Control of the licence balance sheet
- » Legally compliant support during audits
- » Purchase of unused software

YOUR BENEFITS

- » Future-oriented license management
- » Optimized cost-benefit balance
- » Absolute license transparency
- » Legal security
- » On-time delivery
- » Everything from one source
- » Concentration on the core business
